PREMIUM TOOLS FOR THE DEMANDING BARTENDER

The craft cocktail has made its comeback. To honor their revival, Barprofessional presents The Premium Speakeasy Collection, a series of high-quality cocktail tools. Superior materials, timeless designs, and sleek functionality evoke the Roaring 20s. Referencing the illegal “speakeasy” bars of the Prohibition Era in the USA and the emergence of classic cocktail recipes during that era, these tools are designed for bartenders with the highest standards.

SWIZZLE STICK

by Tess Posthumus

In the hands of a skilled bartender, the swizzle stick transforms the act of mixing into a performance, turning a simple stirring motion into a dance of flavors. It's a reminder that even the smallest tools play a significant role in the alchemy of mixology, where precision and style converge to create liquid masterpieces.

THE **ECO-FRIENDLY** WINE-SERVING EXPERIENCE

This novelty in wine bowls is made of a totally innovative construction material, PET. As is known, this thermoplastic resin is 100% recyclable, it does not lose its fundamental properties during the recovery process and, like RPET, it can be repeatedly transformed to create many other new products. All always recyclable, for a more harmonious relationship between man and nature.

This wine preserver, made of high-quality materials, is tried and tested and is highly recommended by wine experts around the globe.

Here's why everyone needs the Zzysh®

- Highly effective wine preserver that prevents your wine from oxidizing.
- Preserves natural flavor and quality for weeks.
